

I support media diversity

I work with a gentleman who owns his own radio station. It plays in the small town that I live in and the surrounding communities. As where I don't like some of the music played, I do turn to the station and enjoy listening to it. I get to hear about the community events, weather, and local weather. I enjoy that, as much as the gentleman enjoys owning it. Please vote for the diversity that allows such wonderful stations to continue. If the new laws are changed, I fear for the future of that radio station and those like it.

Please allow us to decide what we want to hear, not what you think we should hear.

Thank you for your time,

Sara Andler
